

If you wish to join the Sun City West Woodworking Club we have you use our SCW Woodshop Orientation Sign Up program. This program will let you

- Select a time to take the required Orientation class.
- Provide the basic information the club needs about you.
- Pay the Orientation class fee that covers your club dues for the current calendar year.

You will need the following to complete the process

- your Recreation Center number
- an email address
- a password for the registration program
- a credit Card

The password is the trickiest item and causes us the most snags.

It must have

- a minimum of 8 characters but can be more
- Have one upper and one lower case letter
- a digit
- one symbol such as a \$ or @, etc.

Here is a sample format.

Use the first three letters of your name and capitalize the first letter but leave the rest lower case. My first name is Peter, so I would use **Pet**.

For a character the at sign is fine **@**

For the numbers use your 6-digit Rec Card number (i.e. **123456**).

Therefore **Pet@123456** makes an easy to remember password, but unique to you. Please use this

format to register. If you have a password you prefer I will show you how to change it during the

Orientation class. In any case keep a copy of your password written down some place where you can easily find it and bring it to Orientation class.

If you have the above just click to start.
