

## Make a Stool Using Hand Tools

**Instructor:** Bob Simmons

**Prerequisite:** None - this class is for hand-tool beginners – up to experienced hand-tool woodworkers.

**Enrollment:** Limited to three students with a minimum of two.

**Schedule:** 3 sessions of 4 hours over a three-week period - prior to signing up for this class, verify dates and times using the on-line wood club monthly calendar, or contact the instructor.

**Student Materials to Buy & Prepare Prior to First of Three Classes:** None - during the first class, the instructor will work with each student to find and purchase materials based on each student's preferences.

**Description.** Make a stool that has splayed legs with hand cut mortise and tenon joints using a spokeshave, tenon cutter, brace and bit and other hand tools. *All tools are provided by the instructor allowing the participant to use tools before deciding to purchase.*

This a hands-on workshop with a lot of personal attention from the instructor. The participant will take home a completed stool.

**Fee:** \$30 for all 3 four-hour sessions, but this does not include the materials. Each student will select their own wood-type, and pay based on the then-current prices as researched with the help of the instructor. Student will buy materials separately, or work with instructor to reimburse the Wood Club for actual material costs.

**Tools:** Will be provided.
